Early Stage VC 24-Jan-2025

General Information

Description

Developer of a next-generation payment infrastructure platform designed to enable more efficient and secure financial transactions. The company's platform leverages blockchain and advanced decentralization technologies to facilitate value movement with maximum efficiency and freedom for digital assets on-chain management, especially for crypto payment and decentralized finance (DeFi) activities, enabling crypto-based payment systems to handle real-world transactions in a decentralized manner.

Most Recent Financing Status (as of 29-Jan-2025)

The company raised an undisclosed amount of venture funding from IBC Ventures, Citizen Journalism Network Accelerator and International Blockchain Consulting on January 24, 2025.
